

Technical Data Sheet

Sigma Series DSL Meter

The moving coil panel meters, DS 48,72,96,144 housed in moulded polycarbonate cases are suitable for the measurement of DC currents and voltages.

Special Features

- Better resolution.
- Linear scale.
- Glass Filled polycarbonate housing (UL94--0)
- Knife edge pointer.
- Easily replaceable glass and bezel.

Application

The moving coil panel meters, DS 48, 72, 96, 144 housed in moulded polycarbonate cases are suitable for the measurement of DC currents and Voltages.

Movement

Moving coil movement has pivots of very high hardness. Movement is suspended between spring loaded sapphire jewels. Movement is properly shielded critically damped by eddy currents induced in coil former.

Safety Precautions

- 1) Instruments with damaged bezel or glasses must be disconnected from the mains.
- 2) Adequate safety clearance must be maintained to control panel fasteners and to sheet metal housing. If non - insulated connector wires are used.
- 3) The back cover must be snapped into place after connector wires have been clamped for protection against accidental contact.
- 4) Bezel, Scale and Glass may only be replaced under voltage free conditions.
- 5) Instruments to be used in grounded panel.
